P/23/036/COU

Dear planning committee,

I wish to express my opposition to the application number P/23/036/COU for change of use of Holgates Green .

I have no objection to the obviously well researched food truck Lillys and applaud their entrepreneurial ambitions, however the site proposed is a community space, for community fund raising and celebrations, not for one businesses profit.

Why is the food truck already trading on the site, when this planning permission has already been refused once?

The part of the green used by the truck provides shade for the frequent school parties that visit, it also provides shelter from the winds. The fact that the generator is in a separate vehicle which takes up more space on the green is also an issue. Driving any vehicles onto the green presents a risk to the public and while this is indeed done on the occasions where the green is used for community events it is not a daily occurrence. Putting traffic cones on the bus parking area is also an issue, is that actually allowed?

Holgates green was bought by the council for the community to use and so I am a little surprised that a single member of said community would have the right to apply for a change of use.

Kind regards  
Leigh Kendrick
