Site Description and Proposed Development

Sea Spray is at the east end of a short run of mixed style dwellings that extend from the east end of Town Beach up the north side of the Higher Strand towards the old Carn Thomas building. The two-storey dwelling has a pitched roof fronting the highway with a flat roof then extending back and around to the rear where the property wraps around the neighbouring semi-detached dwelling to the west. The property has an access track down the side which leads to Mincarolo guest house and Rosemarinus which sit behind between the dwelling and Carn Thomas itself.

The dwelling has a cream painted smooth render finish with white UPVC windows and doors. The extension around to the rear at first floor level has white painted timber conservatory style windows looking out over the harbour. The pitched roof at the front appears to be an artificial slate covered almost entirely by solar panels with a flat roof dormer window in the middle of it. The rest of the property is flat roofed in grey glass reinforced plastic and covered in standalone solar panels.

This proposal is to replace the existing half glazed white UPVC door on the highway fronting elevation with part glazed, white framed, twilight grey coloured composite door.
