Date: 12 January 2024

Dear Liv Rickman

INSTALLATION OF 75 M LONG GEOBAG CORE ADDED TO EXISTING COBBLE EMBANKMENT AND TIED WITH GEOTEXTILE (EIA DEVELOPMENT). GREEN BAY, SOUTHARD, BRYHER, ISLES OF SCILLY

Thank you for consulting us on this planning application.

Environment Agency Position

There are no objections on to this development.

Reason

We have no flood risk concerns. We acknowledge that the SMP policy for this policy unit (PU45.12) is 'No Active Intervention' for all epochs and therefore would advise that the SMP policy in this location should be reviewed at the next scheduled update.

Fisheries, Biodiversity and Geomorphology comments:

These works are outside of the SAC and only 70 m in length. We consider the impacts are not significant enough to raise an objection.

Yours sincerely

Mark Williams
