### Proposed Section A-A

Horiz. 1:200  
Vert. 1:200

Section of wall to be temporarily removed, set aside and then re-built on completion of the works.

The level change across the field boundary wall is 400mm.  
 Allowing for a 1:10 minimum slope the limit of excavation will be approximately 4m inside the boundary wall.  
 Ramp to be covered with track mats or similar following excavation and all excavated materials to be set aside within the field for re-instatement on completion of the works.

**Note**  
All dimensions must be checked on site.  
Discrepancies must be reported prior to the commencement or fabrication of any work.
