Dear Nicola and planning department,

I would like to put in an official complaint about the plans for the land adjacent to Normandy swimming pool. Over the last year I have watched numerous wildlife use this space, including the Turtle Doves last year and the Red Kites. This also has various species of butterflies amongst other numerous species of insects and birds, I therefore feel extremely strongly that this is an important area that should be kept and preserved! I also would like to point out that for the residents in Normandy House, who at present have a gorgeous view, this will be nothing but an eyesore! I would also imagine extremely noisy and unsettling when we get heavy rains. One of my neighbours current uses a small patch of this ground to grow beautiful sunflowers which are wonderful to see, the bees especially love these and this patch of ground. Other neighbours have small children, and this area fascinates them at present and they can learn about wildlife right on their doorstep, obviously supervised by parents. As we all probably know Normandy Pool is pretty much on its last legs anyway! Why not invest this money into building a new pool nearer to the sports hall, surely this would make more sense and be so much more accessible for the majority of people, especially elderly. I am sure there are lots of other things I could say, but I am trying to be as polite as I can about this. Please don't ruin another small beautiful patch of Scilly.

Many thanks

Jane Pender
