Looking at this planning application of a new roof, I would like to understand more and what guarantee we have as the neighbour. How will it be "merge" into my roof? What guarantees do we get if leaks occur in our roof due to tiles being replaced on the boarder line of the roof? Where is the line of what tiles are being replaced adjacent to our roof?

There is no mention in this application as to our adjacent roof and binding the new tiles into our older tiled roof of ours? Until I see this information I highly disagree with this application.

Many Thanks

Paul Glenister
