I look forward to receiving your comments in due course. If I have not heard back from you by the **27th November 2024** then I will assume you have no comments to make.

Consultee Name: Rebecca Williams (Head of Environment)

Waste Storage and Waste Collections

Internal and external provision is required for the adequate storage of commercial and domestic waste and recycling arising from this property. This property owners/occupiers would be required ensure all material is containerised prior to collections being made. Collections are made by the Council in this area inside the entrance gate.

Domestic waste collections made by the Council: Residents are required to purchase their own waste sacks and containers to secure waste before it is collected. The council's waste service recommends domestic sized wheelie bins (90l, for example), lidded bins or seagull proof sacks. From March 2025 the recycling service for householders is changing to enable improved segregation of recycling material, which will include the provision of three new reusable sacks for paper and card, glass bottles and jars and plastic and tins.

Ref: P/24/083/COU

Commercial waste collections made by the Council: Businesses that have waste and recycling collections from the Council are required to sign-up to the Council's commercial waste service. This service is changing from April 1st 2025 to improve segregation of commercial recycling and to charges and payment systems. More information on changes to the council's commercial waste service will be communicated by the Council in due course. Please contact zerowaste@scilly.gov.uk if you would like to discuss service changes directly with the waste team.
