Description of the Proposal
Please note in regard to:
 Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance. Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please
 include the relevant details in the description below. Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.
Description
Please describe details of the proposed development or works including any change of use

The proposed development is for a takeaway food venue and permission is sought for change of use and the installation of window in the end wall to act as a serving hatch. There would be no access for customers inside the building, all service would be via the window.

A small amount of corrugated cladding on the end wall would be removed to allow for the window and replaced with a more attractive pine shiplap to coordinate with dibble & grub next door and other nearby buildings. I would also like to put a business name sign on the shiplap area.

Has the work or change of use already started?

Yes

⊘ No

Existing Use

Please describe the current use of the site

The area for the takeaway is a small room at the rear of the building and is currently unused. The remainder of the building provides storage space for dibble & grub next door and would remain the same.

Is the site currently vacant?
✓ Yes○ No
If Yes, please describe the last use of the site
Storage
When did this use end (if known)?
01/01/2024
Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.
Land which is known to be contaminated
○ Yes⊙ No
Land where contamination is suspected for all or part of the site
○ Yes⊙ No
A proposed use that would be particularly vulnerable to the presence of contamination ○ Yes ⊙ No
Materials Does the proposed development require any materials to be used externally?
Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)
Type: Walls
Existing materials and finishes: corrugated sheeting
Proposed materials and finishes: Pine shiplap cladding. Please see attached photo of dibble & grub for details. The finish and signage would be as similar as possible.
Type: Windows
Existing materials and finishes: no window
Proposed materials and finishes: White doubled glazed sliding window. Please see attached quote for details.
Are you supplying additional information on submitted plans, drawings or a design and access statement?

If Yes, please state references for the plans, drawings and/or design and access statement

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply? Yes
⊗ No
Biodiversity net gain has been introduced as a general condition for planning permission. As set out in <u>The Environment Act 2021</u> : "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.
If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).
You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons
Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one
Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold)
What best describes the size of your site?: Under 25 square metres
Please justify the reason why biodiversity net gain does not apply: floor space less than 25m2
Note: Please read the help text for further information why developments may be exempt or not in scope.
